T. H. Spaffard Esq.

I submit the following report for Saturday the 16th day of Oct 1926.

While lounging around Court House at Somerville N.J., at 9:40 AM. "Simpson" made his appearance and wearing a very light Colored soft Hat, from his actions and as he is of a very talkative nature and his sole aim is to impress every one that he is it. and as I was not more than two ft. away from him at times as long as he would stand still his greatest conversation with several was regarding "Felix" and as he stated to one a Mr. Nelson that he would get him here yet before the trail.

He bawled up things by having the Grand Jurymen come at 10 sharp and as I heard from several talking that Judge Parker was not to be at Court until 11 AM, or later as he had a conference at Morristown. Judge Parker arrived at 11:30 AM, and after the great "Simp" went in to see him in Court Chamber Judge P. Cleary took the bench at 11:40 AM Judge Parker made a very brief statement to them regarding the law covering the case of this assessory after the fact. to not touching on the Case of H.M. at 11:50 AM. every thing was over and they are to meet at 10 AM Thursday AM, then look out for smoke from the great I AM to explode. quite a few of the Grand Jurymen were in Phila. for over week end and said had not got any notice from "Simp" but got their notice thru News Papers. and can say they were much put out having to come back for 10 minutes as every thing was over in that time.

The more I see of this case the more I am convinced that the whole thing is Dam rot and this little man "Snipp" is no doubt your flooring; and am sure his actions yesterday did not meet the approval of any one concerned as it was open and aloud I told the talk some of the Grand Jurymen said Who is going to pay us for waiting an hour and a half over time, &c, &c, &c, There was nothing important to Phone to Mr Paulsir" so therefore I moved with the rest of town at 12 23 Pm, I can say I have been around many Dist attys and first class attys but never have seen such actions in this man "Snipp" which he is called by most every one just plain "Snipp." he could not stand still over 30 or 4 minutes at a time, he also sat down in Court room and looked at paper then moved pimp up and tear out of Court then back again.

Respt Submitted

Stock

P.S. As Judge Parker had said to the G.J. that he had explained the law before but realize some of them were not present, so he would go over the same again.

L.S.

J. A. Pfeiffer Esq

My reason for not putting full names in my report I provided capture I would not mention their names.

But here is correct names.

Our old friend Lt. A Cooper who is now Commissioner of Public Works at White Plains. You know him.

Porty who gave us information is Cooper Anderson bindy at # 2 South Kensington Ave.

and Under Sheriff T. Underhill whom was Inspector of 2 Dist Police Dept New York City whom I met thru Hon. James C. Cooper, and who will be next Sheriff of Westchester Co.
